Welcome to Dr Patrick Versace

New state-of-the-art ophthalmology practice in Bondi Junction opening soon

TELEHEALTH CONSULTATIONS

Now taking ophthalmology referrals from Optometrists and General Practitioners for vision correction consultations and surgery planning.

ADVANCED TECHNOLOGY

Utilising premium lenses, the latest equipment and advanced techniques to ensure patients have the best experience and outcomes.

A WEALTH OF EXPERIENCE

With over 30 years experience in ophthalmology and a passion for achieving the best results for patients with cataracts, presbyopia and other vision conditions.

DEDICATED TEAM AND PRACTICE

Patrick's close knit support team are experienced, knowledgeable and passionate not only about perfect vision, but more importantly, patient care.

Specialties

The latest technology, premium lens implants and most advanced techniques combine for best-in-class vision correction surgery and recovery.

REFRACTIVE SURGERY

Used to improve the refractive state of the eye and decrease or eliminate dependency on glasses or contact lenses, using premium lenses.

PRESBYOPIA CORRECTION

When the natural lens hardens and loses elasticity, it loses ability to focus on objects at any distance. It can be corrected with Refractive Surgery.

LENS IMPLANT SURGERY

The natural lens is surgically removed and replaced with a synthetic, artificial lens for supreme focusing power.

SMILE TECHNIQUE

A bladeless, one-step, one-laser, minimally invasive procedure that offers fast recovery.

CATARACT SURGERY

Replacement of the eye's natural opacified lens with a new, intraocular lens.

LASER VISION CORRECTION

Refractive surgery for the correction of conditions including myopia, hyperopia and astigmatism.

Meet the team

The Dr Patrick Versace team takes pride in ensuring a welcoming experience for all patients, from booking the initial appointment to surgery aftercare.
